Advances with Coagulation Factor Assays that Improve Laboratory Efficiencies and Patient Care

Mary Doyle, Ph.D., Instrumentation Laboratory

The role of factor testing in the assessment of bleeding and thrombotic diathesis will be reviewed, and the various assay methodologies will be considered. The speaker will address the main technical challenges of the one-stage clotting assay- which is the most commonly utilized method.

Earn Continuing Education Units (CEUs). Beckman Coulter is an approved provider of continuing education programs in clinical laboratory science by the ASCLS P.A.C.E. Program. Earn one contact hour of P.A.C.E. credit for attending each lecture.*
